Things to Spot in the Town has 33 ratings and 6 reviews. Each double page of this picture book invites youngsters to discover different types of tow /5. Overall, this book was definitely better than the Thing to Spot Long Ago. If I had to pick between the two, I'd get this one. I believe kids are going to enjoy looking at the images even more than counting the objects in them/5(10). It was smaller than I expected -- with things to spot, I expected a book with more pages, but since I got it for traveling, it was actually a good thing that it was thinner than anticipated. We love Usborne books, and the drawings in this one will look familiar to anyone who is familiar with their books -- they have a very distinct, cute look.

Things to Spot in the Town by Milbourne, Anna and a great selection of similar Used, New and Collectible Books available now at movefanatic.com - Things to Spot in the Town by Anna Milbourne - AbeBooks.
