The Pares Scales are a staple for individual or like-instrument class instruction. Students should have a range of at least one octave and be able to read 16th note rhythms. I started played a tenor a little over a year ago, I made the best progress reading music and playing solid consistent tones by practicing my scales. Scales can get a little boring but such progress is made by sticking to playing the scales. This book has scales in all of the different keys/5(7).
